## Wednesday Challenge Form

Group Members: Nicholas, Robert, Me

Problem Statement: Try to make an E made Out of sketch up and make it as accurate as Possible.

Approach: It was confuseing at first but once we measured it we started cutting we cut all the Way around than we realized that it didn't go threw all the way so we had to re cut it all the Way around

Solution: make sure to measure all the side Correctaly

Lessons Learned: don't rush at the last minute And measure with accuracy.
